Dear XXXX,

As you may know tariffs continue to be very challenging for our industry. All of us at Accelerated Assemblies have strived to provide the best customer support to help navigate this evolving situation. We continue to monitor and use all tools at our disposal to offset the effects of these tariffs.

We are committed to being 100% transparent with our customer base and pass through any tariffs assessed by our suppliers directly to you with no additional charges.

We look forward to working with you and providing the highest level of customer service for many years to come. Please reach out to us with any questions or concerns. We are ready to assist you with new projects, blanket orders, design concepts, schematics, engineering, and much more.

Sincerely,

Brian Steelglove
President
